Kendallville Public Library
Providing access to information...for life.

KPL connects you to the information you need... anytime you need it.

Take advantage of 24/7 access to how-to videos, right from the Kendallville Public Library website!

Flip the page to see how to get started.
Please note: The 3D Printer will be at South Side Elementary from January 16-21 (no public use).

You’ll find KPL Connect on the library’s website at www.kendallvillelibrary.org. Just look for the blue “Tutorials” button on the right side of the screen. That’s the fastest way to get to the resources available on KPL Connect, but other links are threaded throughout our website.

We will also be adding our Cortex Certification videos to KPL Connect, so you will be able to get certified immediately on the 3D Printer, Digital Sewing Machine, Embroidery Machine and the Cricut.

In addition to the tutorials mentioned above, you can also learn about Ancestry Library Edition, TumbleBooks, Chilton Auto Repair database, Good Reads, Instagram, Pinterest, Twitter, Gmail and Snapchat.

KPL Connect Now Available

KPL Connect is an online resource that offers you quick and easy ways to learn about the technology, services and databases provided by the Kendallville Public Library.

Not only can you use KPL Connect to get acquainted with OverDrive, see what AtoZ Databases has to offer, and get started with Facebook (plus lots more), but you can even learn how to take full advantage of Evergreen Indiana.

You’ll find KPL Connect on the library’s website at www.kendallvillelibrary.org. Just look for the blue “Tutorials” button on the right side of the screen. That’s the fastest way to get to the resources available on KPL Connect, but other links are threaded throughout our website.

We will also be adding our Cortex Certification videos to KPL Connect.

This online resource will be growing and changing all the time as we build our library of how-to videos. Have a suggestion? Let us know by calling 343-2010 or emailing info@kendallvillelibrary.org.

By the way, you can find out more about the free things you can do on your account by clicking on the “Account Preferences” link on the top right of your screen. That’s the fastest way to get to the settings of your library account.

Evergreen Indiana Updates Available in January

Evergreen Indiana’s planned upgrade for December 31 and January 1 will bring some changes to your account. Once the upgrade is complete, you’ll see some differences in options when you log in to your account from our website at www.kendallvillelibrary.org.

- Change to Spanish language. Now at the top of the screen when you are in your account, you will see an option to change the language of the service to Spanish.
- You can now opt to receive emailed receipts! Under Account Preferences, you will see a checkbox for Email Checkout Receipts by Default? If you prefer to receive an emailed receipt rather than a printed one when you are at the library or a self checkout station, simply check the box and save your changes. You still won’t receive a receipt when you renew your items online, though.
- Your Holds List now lets you know where you stand in line. When you view your holds on your account, you’ll see how many copies of that item are available, and where you are in the waiting list.
- It’s now easier to search all of Evergreen Indiana. When searching the catalog, you may only be searching the Kendallville Public Library. If we don’t have what you are looking for, you can now click the check box right on the screen to Show Results for All Libraries.
- Don’t want to see ebooks? You don’t have to. Now there is also a checkbox on the search screen to Exclude Electronic Resources. Click that and you’ll see only physical copies of the item for which you are searching.
- Find the Most Popular items. Now you can sort your item search in a variety of ways, including selecting the Most Popular items that meet your search criteria.
- Want to place a hold on a specific magazine issue or TV show season? It’s easier to do. Previously when placing a hold, you might have missed the Select a Part option. Now, it will be much more obvious when placing a hold on something - like a magazine or TV Series on DVD - that has multiple parts, such as issues or seasons.

We have added some new features that will make it even easier for you to get the most out of your library account. To help you learn about these new features, we will be adding new tutorials to KPL Connect.

Time to Renew Your Kroger Community Rewards!

If you have been using your Kroger Community Rewards to benefit the Kendallville Public Library, it’s time to renew. Kroger requires you to renew your charitable donation each January. For those who don’t yet know about Kroger Community Rewards, this is a great time to get started!

Whether you need to renew or set up your rewards for the first time, visit www.kroger.com/communityrewards, and sign in or create an account. From there, you can link your Plus Card to the Kendallville Public Library (can be searched by name or found by entering code S9848). After that, each time you use your Kroger Plus Card at one of the Kroger family of stores, the Kendallville Public Library will receive a quarterly donation, based on your spending. This program costs you nothing, but gives so much. The library has received more than $2600 since July 2015. Thank you!

 занимается искусством. Ещё одна книга, в которой есть графика, создана с помощью Cricut. Мы будем готовить собственные шаблоны!

Кроме того, в библиотеке также будет проведен мастер-класс по рисованию с помощью 3D-принтера. Мы предоставим все необходимое, включая наборы шаблонов. Вы также можете быть креативны и рисовать ручкой, красить или раскрашивать, а также использовать шаблон, созданный с помощью Cricut, чтобы персонализировать элементы интерьера. Мы соберем все вместе!

**Children’s Department Pet of the Year Winner**

Поздравляем Лили Оборн! Её оригинальный питомец, Чокнутый Барсик (театральный медведь) и капитан Футбол (оккупус) превратились в детей Кендаллвилли Публичной библиотеки. Её участники подняли до вершины компетенции по поиску. Когда вы будете взаимодействовать с вашими заказами, вы увидите, сколько копий есть у вас, и где вы идете в очереди.

**Evergreen Indiana Updates Available in January**

В декабре и январе Evergreen Indiana планирует обновить свои услуги. Теперь вы можете выбрать язык для просмотра: испанский.

**Find the Most Popular**

Теперь вы можете найти популярные предметы в различных направлениях, выбрав наиболее популярные предметы, которые отвечают вашему критерию поиска.

**Want to place a hold on a specific magazine issue or TV show season?**

Теперь это проще. До этого, когда вы ставили заказ, вы могли пропустить опцию Селект частей. Теперь это будет гораздо более очевидно, когда вы ставите заказ на что-то, например, на журнал или серию TV на DVD, которая имеет несколько частей, таких как выпуски или сезоны.

**Time to Renew Your Kroger Community Rewards!**

Если вы используете свою Кроулер Фамили Синхронайзер для благотворительности библиотеки Кендаллвилли Публичной библиотеки, это время для обновления. Кроулё требует обновления вашей благотворительной помощи каждый января. Для тех, кто не знает о Кроулё Фамили Синхронайзер, это хорошее время для начала!

Возможно, вы решите обновить или создать новую вашу информацию об особенностях библиотеки. Просто перейдите на www.kroger.com/communityrewards, войдите или создайте новый аккаунт. Оттуда вы можете связать свой Плюс Кард с библиотекой Кендаллвилли Публичной библиотеки (можете запустить поиск по имени или найти, введя код S9848). После этого, каждый раз, когда вы используете свою Кроулер Плюс Кард в одной из компаний Кроулё, библиотека Кендаллвилли Публичная библиотека получит еженедельную сумму, основанную на вашем потреблении. Этот программный продукт стоит вам ничего, но столько дает. Библиотека получила больше чем $2600 с июля 2015 года. Спасибо вам!
Activities for Kids
Birth - Grade 5

Rosie Revere, Engineer
By Andrea Beaty; illustrated by David Roberts

Do you love to tinker and toy with gadgets and gizmos? The book, *Rosie Revere, Engineer*, is the perfect book for you! Rosie Revere, a second grader at Blue River Creek Elementary, dreams of being an engineer. She spends her days collecting bits of this and that for her “engineer’s stash,” and spends her evenings hidden away in her attic inventing and constructing her next great creation. After building a cheese hat that sprays strings of cheddar into the air to help scare off pythons for her uncle, Rosie gets discouraged, and wonders if her dreams of becoming an engineer would be better kept to herself.

She puts the cheese hat on her shelf, until one day her beloved great-great-aunt Rose comes to visit. Rosie Revere, Engineer is a fabulous book that encourages young scientists and problem solvers to get out there and tinker! I have read it to children from first grade to fifth grade, and have found that it inspires curiosity and perseverance in all.

For more books on erosion, check out our Kid’s Science collection!

Soil Erosion and How to Prevent It
By Natalie Hyde

Recently, during some of my classroom visits and M.A.P.S Workshop sessions, we explored the effects of rain weathering the Earth’s surface by dropping small amounts of water on sand towers. The kids had a great time exploring this concept and learning for themselves what rain can do to change the surface of the Earth. *Soil Erosion and How to Prevent It* is a non-fiction book that illustrates and further explains all of the ways that our life-giving soil is affected by water, wind, ice and chemicals. It highlights scientists who test water quality and plant life to continually improve our soil, and it shares ideas for how humans can slow down or stop soil erosion.

The engaging photographs and easy to read “text box” style writing makes this book interesting and reader friendly. The “You Dig It” boxes give kids science experiments and activities that help them connect the information in the book to real life experiences. A glossary, recommended further reading list and suggested websites for more exploration are included at the end of the book.

For more books on erosion, check out our Kid’s Science collection!

Transportation Depot

The KPL Children’s Play Area will be transformed into a Transportation Depot in January. This self-directed play space will feature roads and stations located all throughout the Children’s Department. They’re perfect for pit stops! Each station will encourage your child to make or experience something new.

New to the Teen Spot in Kendallville
The Teen Department recently purchased a new TCL Roku TV, PlayStation 4, seven games and subscription to Playstation Plus, giving teens the ability to play games online with people from all over the world. The seven purchased games are Minecraft, Star Wars: Battlefront, Little Big Planet 3, Uncharted 4, Destiny: The Taken King, Need for Speed and Rocket League. All of these games allow for multiplayer collaboration locally at the library or with the entire world using the Playstation Plus multiplayer features within each game. The system is located inside the Teen Program Room.

In addition, the teens also have access to the library’s Amazon Prime Video, Netflix, and Vudu accounts. This means you can come in and watch your favorite movies or TV shows in the library. Ask to use these new items today!

Moon Girl and Devil Dinosaur: BFF Vol. 1
By Amy Reeder and Brandon Montclare

Lunella Lafayette is a nine-year-old super genius and amateur inventor who lives with her parents in New York City. She's bored with school because it isn't teaching her anything new, but mostly she's worried about the inhuman gene that lies dormant within her.

One day, a scaly red Tyrannosaurus Rex is teleported to the current day from the past and becomes an unlikely friend to Lunella. Unfortunately, a group of dangerous hominids were also teleported from the past with Devil Dinosaur. Can Lunella keep her new best friend even though he's a monstrous dinosaur? Will Lunella's inhuman gene turn her into a crazed monster as well? And most importantly, will Moon Girl and her new BFF save the day from the prehistoric savages wreaking havoc on NYC?
