

Adult Services Department

June Report

Collection:

I've been trying to spend more time at our Limberlost branch so that we can make a smooth shift to Topic Driven. Anita, Bonnie, and Teresa have made quite a bit of progress in just a couple of weeks on the adult collection and it is coming together nicely. It's awesome to have already worked out the kinks so this should be a relatively quick process.

Anita and Aleena (our summer employee) are working to get all of our fiction books relabeled in Kendallville.

Cheryl and I have been working quite a bit in the genealogy room. The hope is that people will utilize more materials that they didn't know we had and to highlight a collection each month. We've added postcards, Russell Frehse papers, and papers about various clubs from Kendallville's history. We've been fortunate to have three strong volunteers help to organize these papers.

Programs:

Our programs continue to be popular. The photo below shows three generations of a family that attend quite a few of our programs together. The programs are a great opportunity to meet new people and for patrons to enjoy free experiences.

Trainings:

Lee Ann and Cheryl have each taken webinars this month on genealogy resources and offering services to senior citizens.
