National Volunteer Week is about inspiring, recognizing and encouraging people to seek out imaginative ways to engage in their communities. It’s about demonstrating to the nation that by working together, we have the fortitude to meet our challenges and accomplish our goals.

The library routinely utilizes the time and talents of volunteers...in fact, we couldn’t do as much without them.

From organizing materials, to straightening shelves, to leading programs, volunteers perform important tasks that assist in the day-to-day operations of the library.

Our thanks to these volunteers who are currently serving, or have served in the past year:

What are the “Unlimited Possibilities” that you have experienced at the Kendallville Public Library? Share your stories during National Library Week, April 12-18.

Stop in to the library to pick up a pen and book bag (while supplies last). While you’re here, take a moment to fill out a form and let us know...what seemed impossible until you got help at the library? Did that eReader baffle you until you scheduled a Book-a-Librarian appointment? Was your child stumped on how to build creatively with LEGOs until they came to the LEGO Club and got ideas from their fellow builders? Did researching your family history seem overwhelming until you stopped in to the Russell Frehse Genealogy Room and our staff showed you where to start? Did a member of the Children’s Department help you find books that finally got your child interested in reading?

In addition to completing the entry form at the library, you can also submit your answers online at www.kendallvillelibrary.org. Just look for the National Library Week story under News to complete the online form. A few lucky participants, chosen at random, will win a prize!
“How to Draw” Books

Do you wish you were more artistic? Have you ever uttered the words, “I wish I could draw”? If so, our series of “How to Draw” and “How to Art Doodle” books should be perfect for you. We have books on drawing people, cars, animals, fish, Phineas and Ferb, objects and princesses for patrons of all ages to check out.

In addition, we just received two new series of drawing books. One is on drawing superheroes and the other is a new series that teaches people how to art doodle. These books have simple step by step instructions that are sure to improve everyone’s drawing abilities and can be found in the 700 call numbers within the Children’s Department.

So You Want to be an Inventor?

Written by Judith St. George
Illustrated by David Small

From Benjamin Franklin to Vladimir Zworykin, So You Want to be an Inventor? walks you through history naming inventors and their creations and encouraging children to do the same. "If you want to be an inventor, find a need and fill it."

I enjoyed this book because it is filled with fun and strange facts, the illustrations are wonderfully hilarious and it did mention a few female inventors. However, it is on the longer side so it's best for older children. Plus, there are a few inventions that young children might find scary or disturbing, like the guillotine and a coffin with a breathing tube...you know, in case you bury someone alive!

Serenity: Those Left Behind
By Joss Whedon

Confession; I am an incurable geek. Browncoats (Firefly fandom), we may not have a second season like we wanted, but we do have a graphic novel series! Joss Whedon’s brilliance shines through just like in Buffy the Vampire Slayer and The Avengers.

Set before the movie Serenity, Those Left Behind takes off where season two of Firefly should have. Malcolm Reynolds is still captaining Serenity. All of your favorite characters are still aboard ship. The Alliance is still after River and Simon Tam and, as expected, trouble is always just around the corner. If you’ve never watched Joss Whedon’s television series Firefly or his movie Serenity, this graphic novel is the perfect way to be introduced to the awesomeness ahead. Let’s face it, you can never be in too many fandoms.

Reality Check
By Peter Abrahams

Going from high school sweethearts, to shattered dreams, to a loved one gone missing makes this suspenseful book worth your while. I personally couldn’t put it down! Cody and Clea start out as the perfect teen couple, but that ends when Clea is forced to attend boarding school in Vermont. Not only is she miles away from her home town, but ends up missing. The first clue is found in a letter she writes Cody before she vanishes, which he receives it the morning of her disappearance. It reads:

“Some of the kids are cool, some are snobby, make me feel kind of hickish. One or two I don’t like at all. It’s hard to know who to trust sometimes…”

The author creates very mysterious yet believable characters throughout the entire book. You are constantly trying to figure out what really happened and who is responsible. I had my suspicions on who might be involved but then a couple of twisted situations occurred leaving me back at square one. You will fall in love with Cody’s character because of his determination and passion towards finding his love, whether she is alive or dead.
