

Getting Started with eBooks and OverDrive

Additional information and access to OverDrive available online at www.kendallvillelibrary.org.

Getting Started with Amazon Kindle

All you need to get started is:

- your device,
- computer
- an internet connection,
- library's name
- personal library card number

You can borrow Kindle Books from the Kendallville Public Library and deliver them wirelessly to your Kindle device, a free Kindle reading app (available for many platforms, like Android, iOS, Windows, and Mac), or Kindle Cloud Reader.

If you're using a Kindle Fire, Fire HD, or Fire HDX, please refer to our guide on getting started with Kindle Fire devices.

Step 1

Use a computer, tablet, or smartphone to access OverDrive from the library's website at www.kendallvillelibrary.org.

Step 2

Use the advanced search or search filters to find an eBook that's available in the **Kindle Book** format (or, look for the "Available formats" on each title's details page).

Step 3

Once you borrow an eBook that's available as a **Kindle Book**, select **Kindle Book** from the **Download** drop-down menu that appears next to the title on your **Bookshelf**, then select **Confirm & Download**. You'll be taken to Amazon's website to complete your checkout.

Step 4

On Amazon's website, follow the on-screen prompts to "Get library book" and wirelessly deliver it to your Kindle device or reading app. *You will need to sign in to your Amazon account to complete this process. If you don't have an Amazon account, you'll be prompted to create one.*

Note: Library books require a Wi-Fi connection for download to Kindle devices. If you do not have an available Wi-Fi connection, you will need to transfer the eBook via USB.

Once you deliver a library Kindle Book to your device or reading app, it works like any other Kindle Book.

Transfer from a Computer to Your Kindle

If you don't have a Wi-Fi connection, you can transfer books, magazines, or newspapers from a computer to your Kindle via USB. To borrow some public library books, you need to transfer them from a computer to your Kindle.

After you check out books and periodicals, they are stored in the Cloud and are available for transfer from Manage Your Content and Devices . To transfer content from your computer to your Kindle, use the USB cable you received with your device.

- Visit Manage Your Content and Devices
- Connect your device to your computer with the USB cable your device will appear in the same location on your computer that external USB drives appear.
 - **Windows:** Your device will appear in the **Computer** or **My Computer** folder.
 - **Mac:** Your device will appear on the desktop.
- Open the device folder, and then open the **Documents** or **Internal Documents** folder.
- Locate the downloaded file on your computer, and then drag and drop the compatible file into the appropriate folder. Depending on your device type, the folder names may vary.
 - For example, on Kindle Paperwhite, move books to the **Documents** folder. On Kindle Fire tablets, move books to the **Books** folder.
- Safely disconnect your device from your computer once the transfer is complete.

Return a Library Book

To return a library book before the loan period ends, visit Manage Your Content and Devices.

OverDrive books check out for 7, 14 or 21 days, depending on the time you have set in your OverDrive preferences. You'll receive a courtesy reminder e-mail from Amazon three days before the book is due and another e-mail when the loan period has ended.

To return a library book:

- Go to Manage Your Content and Devices.
- From **Your Content**, select the **Actions** button next to the book that you want to return.
- Select **Return This Book**, and then select **Yes** in the pop-up window.

You will no longer have access to the book from your device after it's been returned. However, you can always access your saved notes and highlights through Manage Your Content and Devices even after the book has been returned. If you check out the book again, or purchase it from Amazon, your notes and highlights will appear in the book.

Additional questions about how to use your eReader device with OverDrive?
